

GEL-SOLV[®] is a non flammable blend of powerful, non volatile, nonchlorinated natural citrus solvents which cut through and remove such difficult soils as fat, grease, oil, asphalt, furniture stains, adhesives, wax, cosmetics, lipstick, paint, soil filtration lines, carbon, and ball point ink. It contains wetting agents for rapid penetration of the soil. A thickening agent keeps the active ingredients on the soil and reduces bleeding to the backing or spreading of the stain — a common problem with most POG solvent spotters. Its clinging action also allows it to work better on vertical surfaces. Contains no cationic ingredients, has a neutral pH, and is safe for all carpet fibers when properly used.

NET CONTENTS: 1/2 Gallon (1.89 Liters)

DIRECTIONS FOR USE:

1. Test on carpet, fabric or wall covering before use. Do not overwet latex — or sponge — backed carpets.
2. Pour on cloth, and blot from outside of stain to center.
3. Work GEL-SOLV[®] into area with a bone scraper. CAUTION: excessive rubbing or brushing may result in distortion of carpet pile or may force the product (and stain) deeper into the pile or to the backing.
4. Carefully scrape up softened residue with a bone scraper.
5. Blot with Sol-T-Solv[™] dry volatile solvent.
6. Repeat treatment if needed.
7. Blot with dry cloth or towel.
8. Wait extract the treated area to remove all residue.
9. If a stain remains, remove with FDI[™] per label directions.

CAUTION:
KEEP OUT OF REACH OF CHILDREN

Avoid eye and skin contact.
Wear rubber gloves for extended contact.
Do not take internally.
