

PHASE V™ is a combination deodorizer and spotter for use in the treatment and neutralization of urine and feces spots, as well as the removal of tannin, tea, and coffee stains. Contains wetting agents to penetrate the spot, organic acid to neutralize urine and tannin, alcohol solvent, and a quaternary ammonium chloride to control odors. Contains no Butyl Cellosolve or allergy-sensitizing enzymes.

May be used on Stainmaster® carpet if followed with Scotchgard™ or Teflon®.

FOR PROFESSIONAL USE ONLY

### DIRECTIONS FOR USE

1. Pretest for color fastness.
2. Dilute 1 part PHASE V with 10 parts of water. If desired, add a few drops of PerScent™ Cherry, Lemon, Baby Powder, or Rose for fragrance.
3. Remove residue with a bone scraper.
4. Spray the diluted PHASE V onto the spot. Work in with a tamping brush or bone scraper.
5. Rinse and extract thoroughly.
6. For concentrated odor problems, use injection kit to inject undiluted PHASE V through the carpet to the pad or source of odor. If Stainmaster® carpet, inject with Masterseries™ Deodorizer Concentrate only.
7. Follow with wet extraction to remove any residue. If Stainmaster carpet, follow with Masterseries treatment.

### CAUTION

KEEP OUT OF REACH OF CHILDREN

Avoid eye and skin contact.  
Flush thoroughly with water.  
Use only in well-ventilated areas.  
Rubber gloves recommended.  
Do not take internally.
