

PREFACE™ is a super-concentrated formulation of synergistic emulsifiers and water soluble non-hydrocarbon solvents. Made especially for our upholstery cleaning operation, PREFACE™ is designed to safely treat heavily compacted oil, grease and all water soluble soils. It contains revitalizing color brighteners and water softening agents.

To complete the formulation, our chemists added a generous measure of EMULON®, Bane-Clene's exclusive surfactant complex, which ensures penetration of the most difficult soil conditions.

NET CONTENTS: 1 Gallon (3.78 Liters)

FOR PROFESSIONAL USE ONLY

PREFACE™

Upholstery Pre-Spray

DIRECTIONS FOR USE

1. Test all fabrics for colorfastness (see manual for special instructions).
2. Mix 10 parts of cool water to 1 part PREFACE™ in a pressure sprayer. (Catalog #30200 or 30220)
3. Using the "fine mist" setting, apply the diluted mixture of PREFACE™ and water to the fabric. Allow 5 minutes before beginning cleaning operation.
4. Under extreme soil conditions, may be diluted 4 parts water to 1 part PREFACE™.

CAUTIONS:

1. Do not apply to material that requires drycleaning.
2. Never use PREFACE™ undiluted.
3. Always test fabric before using PREFACE™.
