

A moisture-curing silicone soil and stain barrier for both carpeting and upholstered furniture - with the wear resistance needed for flooring and the stretch and flexibility needed in upholstery. Makes recleaning easier, lengthens the life of the fibers and reduces the severity of spills and stains. Easier to apply than flour-chemical treatments.

**FOLLOW DIRECTIONS  
DO NOT WASTE PRODUCT**

**DIRECTIONS FOR USE**

1. Use undiluted. Do not contaminate with water.
2. Most carpets are colored. If in doubt, test in an inconspicuous spot.
3. Surface must be freshly cleaned and absolutely free of all oils/greases.
4. Apply in a line mist using a stainless steel pressure sprayer, Catalog #30220.
5. Treated surface should appear moist and glossy shortly to be sure enough product has been applied. Never Over Apply.
6. Make certain that carpeted areas and heavy traffic areas have been well treated.
7. Coverage: 300 to 1,200 sq. ft. per gallon on carpet. Density, and depth of pile and fiber content determine actual coverage. Coverage on upholstery: 30-120 sq. yards per gallon. Reapply whenever the carpet or furniture is cleaned in order to maintain maximum effectiveness.
8. Always shut pressure sprayer fully.

**CAUTIONS:**

Use only in open, well-ventilated area. Keep vapors from extreme heat or open flame. Avoid prolonged contact with skin. Remove any gels and small children from area until surface has dried.

**CAUTION:  
KEEP OUT OF REACH  
OF CHILDREN.**
