

TLS 2000 is an extra strong super-concentrated formulation of grease emulsifiers, wetting agents, scale softeners, water soluble solvents, and buffered alkaline saponifiers. Formulated especially for treatment of carpeting containing very high levels of ground-in, compacted grease, oil, dirt and food stains. Contains no butyl cellosolve, chlorinated solvents, enzymes, or free caustic, all of which could cause allergy and toxicity problems. Use of TLS 2000 on grease laden carpeting will greatly reduce chemical usage, time, and effort (resulting in labor and material savings).

NET CONTENTS: 1 Gallon (3.78 Liter)

DIRECTIONS FOR USE:

1. Mix 1 part TLS 2000 with 10 parts of hot water in a pump-up sprayer.
2. Under extreme soil conditions, dilute 1 part TLS 2000 to 5 parts of hot water.
3. Using the "fine mist" setting, apply the diluted mixture of TLS 2000 to the heavily soiled areas. Avoid spraying into the air.
4. Allow 5-10 minutes before cleaning. Do not allow to dry.
5. Thoroughly wet extract the treated areas using a Bane-Clene detergent per label directions.
6. After cleaning, sensitive carpeting should be treated with BROWN OUT™ per label directions.

CAUTION:

KEEP OUT OF REACH OF CHILDREN

Avoid eye and skin contact.
Do not take internally.
Never use TLS 2000 undiluted.
Use with caution on light or paste-carbets.
Not for use on 5th generation stain-resistant nylon carpet or on upholstery.
Pretest for color fastness.
